4. Ensure confidentiality in the usage of client records and clinical materials by obtaining informed consent from clients or their legally authorized representative before (i) videotaping, (ii) audio recording, (iii) permitting third-party observation, or (iv) using identifiable client records and clinical materials in teaching, writing or public presentations.
5. Maintain client records for a minimum of six years or as otherwise required by law from the date of termination of the therapeutic relationship with the following exceptions:
 - a. At minimum, records of a minor child shall be maintained for six years after attaining the age of majority or 10 years following termination, whichever comes later.
 - b. Records that are required by contractual obligation or federal law to be maintained for a longer period of time.
 - c. Records that have been transferred to another mental health professional or have been given to the client or his legally authorized representative.

D. In regard to dual relationships, persons licensed by the board shall:

1. Not engage in a dual relationship with a client or a former client that could impair professional judgment or increase the risk of harm to the client. (Examples of such a relationship include, but are not limited to, familial, social, financial, business, bartering, or a close personal relationship with a client.) Social workers shall take appropriate professional precautions when a dual relationship cannot be avoided, such as informed consent, consultation, supervision, and documentation to ensure that judgment is not impaired and no exploitation occurs.

2. Not have any type of sexual intimacies with a client or those included in collateral therapeutic services, and not provide services to those persons with whom they have had a sexual relationship. Social workers shall not engage in sexual intimacies with a former client within a minimum of five years after terminating the professional relationship. Social workers who engage in such a relationship after five years following termination shall have the responsibility to examine and document thoroughly that such a relationship did not have an exploitive nature, based on factors such as duration of therapy, amount of time since therapy, termination circumstances, client's personal history and mental status, adverse impact on the client. A client's consent to, initiation of or participation in sexual behavior or involvement with a social worker does not change the nature of the conduct nor lift the regulatory prohibition.
3. Not engage in any sexual relationship or establish a therapeutic relationship with a current supervisee or student. Social workers shall avoid any nonsexual dual relationship with a supervisee or student in which there is a risk of exploitation or potential harm to the supervisee or student, or the potential for interference with the supervisor's professional judgment.
4. Recognize conflicts of interest and inform all parties of the nature and directions of loyalties and responsibilities involved.
5. Not engage in a personal relationship with a former client in which there is a risk of exploitation or potential harm or if the former client continues to relate to the social worker in his professional capacity.
