

One Care of Southwest Virginia, Inc.

One Care of SWVA

A Consortium of Substance Abuse Coalitions

Sarah T. Melton, PharmD, BCACP, BCPP, FASCP

Chair, One Care

meltonst@etsu.edu

Strategic Planning Process

February 2009 – An agreement on basic beginning assumptions

- Critical historical opportunity in time especially with the national attention focused on substance abuse in Appalachia
- Strategic to take this issue on as a region and work to speak with one voice rather than on an individual agency or jurisdiction basis
- Important to operate from the collaborative standpoints of **policy, data and advocacy** because being unified can make difference

Mission

- One Care of Southwest Virginia is committed to decreasing substance abuse and misuse, and related social, economic and health factors through planning, policy, data, and advocacy.

Vision

- One Care's vision is to be a model for achieving significant reductions in substance abuse and related social, economic and health factors by building and supporting community partnerships.

Organizational Focus

- Policy
- Data
- Advocacy

One Care Service Region

Accomplishments

- Reconstitution and reorganization of the One Care of Southwest Virginia
- Close partnerships with legislators on the state and federal levels
- Hosting of four regional meetings for the collection of data for the development of the One Care of SWVA Blueprint for Substance Abuse and Misuse Prevention, Treatment, and Control
- Key partner of REVIVE! Naloxone Overdose Education Programming

Accomplishments

- Planning and hosting more than 15 *Free Educational Forums on Prescription Drug Abuse* reaching over 5,000 prescribers and dispensers
 - *Prescription Drug Abuse Forum*
 - *Treatment of Chronic Pain in Patients with Addiction*
 - *Neonatal Abstinence Syndrome*
- Provision of presentations and public awareness meetings throughout the region
- Established partnerships with substance abuse coalitions, Healthy Appalachia Institute, and the SWVA Health Authority
- Governor's Task Force on Heroin and Prescription Drug Abuse 2015-2016

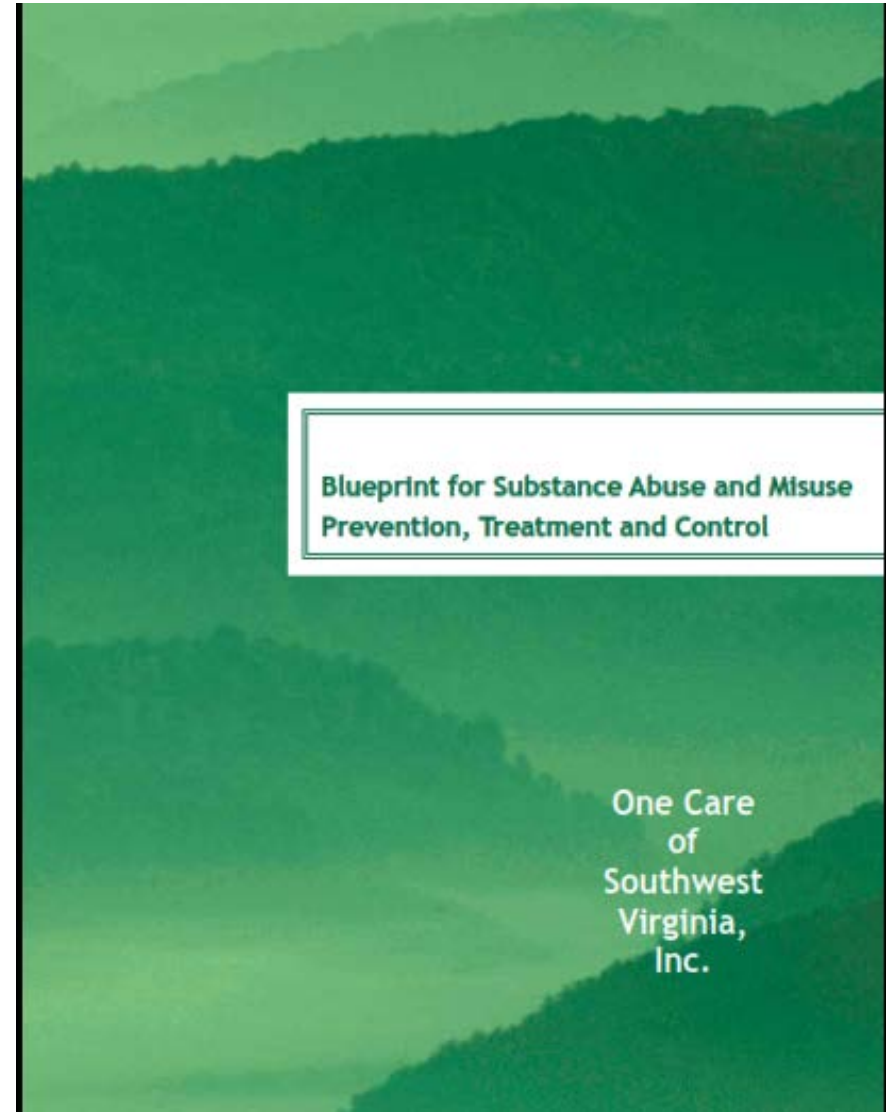

Accomplishments

- Legislation
 - Tramadol as a “drug of concern” before a controlled substance
 - Mandatory registration of prescribers and dispensers with the Prescription Monitoring Program (PMP)
 - Mandatory checking of the PMP before prescribing controlled substances
 - Mandatory continuing medical education

Moving toward success...

One Care of SWVA's Blueprint for Substance Abuse and Misuse Prevention, Treatment and Control

<http://wpp2.webpublishpro.com/sites/default/files/onecare/files/One%20Care%20Blueprint%202011.pdf>

The Blueprint

- 17 Goals with 81 *Near, Intermediate and Long Term Objectives*
- A full action plan for a *Comprehensive Communications Campaign*
- 13 *Policy Initiatives* geared towards primary prevention of misuse or abuse
- “Adopt a recommendation” feature

Moving Toward Success

- Presenting at the National Drug Abuse Summit
 - Education of students about prescription drug abuse (Generation Rx)
 - <http://gattoncopgenerationrx.weebly.com/>
 - Community involvement
 - Care of Pregnant Women with Opioid Dependence
 - Engagement of Prescribers for Life-long learning about addiction and appropriate prescribing of opioids

Moving Toward Success

- Testimony for Congressional subcommittee of Energy and Commerce – Oversight and Investigation, April 2015
 - <http://energycommerce.house.gov/hearing/examining-growing-problems-prescription-drug-and-heroin-abuse-state-and-local-perspectives>
 - Provider education (students, residents, prescribers)
 - Expanded access to naloxone
 - Treatment: standards of care
 - Monitoring with PMP
 - Storage and disposal

Moving Toward Success

- Contracted with the VDH Office of Minority Health and Health Equity to provide
 - Four 6-hour CE programs across the Commonwealth targeted in rural areas
 - 3-hour health care profession education program on prescription drug abuse at 2 Schools of Medicine in Virginia
 - 5 regional trainings for naloxone education for lay rescuers across the Commonwealth, targeting rural areas using the REVIVE! curriculum

Moving Toward Success

- Contracted with the Virginia Rural Health Association to provide operational director services
 - Beth O'Connor
 - onecare.beth@gmail.com

Goals

- Further expansion of Virginia-based continuing education seminars in partnership with the MSV, VDH and other stakeholders outside of our coalition region
- Implementation of goals in the Blueprint
- Continuing efforts in supporting the existence and establishment of SA Coalitions throughout the region
- Improving visibility in the region with community coalitions, researchers, behavioral health practitioners, state authorities, and federal entities through personal contact, publications, and increasing internet presence
