IMPORTANT SUPERVISION NOTICES! Once your Resident in Counseling license is approved, your supervisor is responsible for your counseling activities at the location indicated on your supervisory contract.

Providing clinical counseling services without holding licensure in Virginia is unlawful, unless you are providing clinical services in a in an exempt setting as indicated in § 54.1-3501 of the Code of Virginia.

Residents may not call themselves professional counselors, directly bill for services rendered, or in any way represent themselves as independent, autonomous practitioners or professional counselors. During the residency, residents shall use their names and the initials of their degree, their resident license number, and the title “Resident in Counseling” in all written communications. Clients shall be informed in writing that the resident does not have authority for independent practice and is under supervision and shall provide the supervisor’s name, professional address, and phone number.

Adding or Changing Supervisor or Worksite after being approved as a Licensed Resident in Counseling: After issuance of a temporary resident license, a resident will not be required to submit an application, pay a fee or notify the Board in order to add/change a supervisor or worksite. However, a resident must have a signed and established supervisory contract for each supervisor and worksite prior to providing clinical counseling services and before counting hours toward licensure. A copy of each supervisory contract is to be retained by the resident and supervisor. Residents are responsible for making sure their supervisor is approved by the Board.

Revised: 03/2023
**Termination of Supervision:**
If supervision terminates, you or your supervisor should complete the Termination of Supervision form (which can be found on the Board website). The Termination of Supervision form should be maintained in the supervisor and resident’s records in case of an audit or complaint. Your supervisor should also complete the last Quarterly Evaluation form and the Verification of Supervision form. You, the resident, must keep this form in your records until you are ready to apply for LPC licensure. This Verification of Supervision and Quarterly Evaluation forms are necessary pieces of your application and serves as documentation of your supervision and residency hours.

**Step 3: Complete the Supervised Residency Requirements**
Once the Board issues you a temporary License as a Resident in Counseling, you have achieved the status of “Resident in Counseling” and you can count your supervised residency experience hours towards LPC licensure. To achieve LPC licensure, you must meet all of the residency requirements.

**Residency Requirements:**
1. A 3,400 hour supervised residency in counseling practice with various populations, clinical problems and theoretical approaches in the following areas:
   - Assessment and diagnosis using psychotherapy techniques
   - Appraisal, evaluation, and diagnostic procedures
   - Treatment planning and implementation
   - Case management and record keeping
   - Professional counselor identity and function
   - Professional ethics and standard of practice
2. 2,000 hours of face-to-face client contact must be documented within this 3,400 hour residency. Graduate internship hours in excess of 600 hours, may count for up to an additional 300 hours towards the total residency requirements if the internship was earned after the completion of 30 graduate semester hours.
3. A minimum of 200 hours of supervisory sessions, occurring at a minimum of 1 hour and a maximum of 4 hours of supervision per 40 hours of work experience, during the period of the residency. 100 hours of the 200 required hours must be obtained under board-approved supervision with a Licensed Professional Counselor. Up to 20 hours of the supervision received during the supervised internship may be counted toward the 200 hours of in-person supervision if the supervision was provided by a LPC. Group supervision hours are equivalent to individual supervision hours, however, only half of the 200 required hours may be obtained in group supervision.
4. You must complete your residency in no less than 21 months and no more than four years. Residents who began their residency before August 24, 2016 must complete the residency by August 24, 2020. If you unable to complete your residency after four years, you must submit the Resident in Counseling Supervised Experience Extension Request form and provide evidence to the board showing why the supervised experience should be allowed to continue prior to August 24, 2020. (Please email the Board at coun@dhp.virginia.gov for a copy of the Extension Request form.)

Revised: 03/2023
NOTE: Supervision that is not concurrent with a residency will not be accepted, nor will residency hours be accrued in the absence of approved supervision.

Once you receive your resident license, you must post a copy of their license in a conspicuous place as stated in section § 54.1-3506.1 of the Code of Virginia.

Random audits will be conducted to verify the Licensed Resident in Counseling is meeting the minimum requirements which would include verification of a signed supervisory contract.

What is group supervision? The Board’s definition means the process of clinical supervision of no more than six persons in a group setting provided by a qualified supervisor.

What should be in a supervisory contract? A supervisory contract is an agreement that outlines the expectations and responsibilities of the supervisor and resident in accordance with regulations of the board. An example of a supervisory contract can be found on the website.

What is in-person supervision? It is the supervision between supervisor and resident in the consultation and review of clinical counseling services provided by a resident. In-person supervision may include the use of secured technology that maintains client confidentiality and provides real-time, visual contact between the supervisor and the resident. For more information on technology-assisted supervision please refer to Guidance Document: 115-1.4.

What are clinical counseling services? The Board’s definition means activities such as assessment, diagnosis, treatment planning, and treatment implementation.

How do I count group therapy hours? If you are providing clinical counseling services in a group therapy session, you are only allowed to count the time that you met with the group. For instance, if you have 10 clients present for an in-person one hour group therapy session, you can only count one hour toward the 2,000 hours of face-to-face client contact requirement.

Effective October 16, 2019, the Regulations state that supervised practicum and internship hours from a CACREP-accredited doctoral counseling program may be accepted for up to 900 hours of the residency requirement and up to 100 of the required hours of supervision provided the supervisor holds a current, unrestricted license professional counselor.

Out-of-State Supervision: Supervision completed in another jurisdiction can possibly count toward licensure if it meets the requirements outlined in Virginia’s Regulations. The board will not review this supervision until you have completed your supervised experience, pass the NCMHCE examination and apply for LPC licensure by examination. You must have your past supervisor(s) complete Virginia’s Verification of Supervision form. You should keep this information until you are ready to apply for LPC licensure by examination. Additionally, you will be required to submit your supervisor’s license verification in order to verify that they meet the supervisor requirements.

Step 4: Renew your Resident in Counseling License
The resident license will expire annually in the month the resident license was initially issued and may be renewed up to five times. (For example, if you were approved for a resident license on January 15,
2020, you will be required to renew your license on or before January 31 each year that you are in residency. Annual Renewal fee is $30.00.

On the annual renewal, the resident must attest that a supervisory contract is in effect with a board-approved supervisor for each of the locations at which the resident is currently providing clinical counseling services.

Additionally, the Resident in Counseling must complete **three (3) hours in continuing education courses that emphasize the ethics, standards of practice, or laws governing behavioral science professions in Virginia**, offered by an approved provider as set forth in subsection B of 18VAC115-20-106 of the Regulations.

**NOTE:** Residents providing clinical counseling services in a non-exempt setting must remain in residency by holding a current active License as a Resident in Counseling and practicing under supervision until the resident has passed the licensure examination and been granted a license as a professional counselor (LPC). Providing clinical counseling services with an expired licensed could be cause for disciplinary actions. Therefore, you may need to renew your resident license while you are waiting on the Board to receive your passing NCMHCE scores and process your application for licensure.

**Step 5. Take and Pass the Examination**

To become licensed as an LPC by the Board you must pass the National Clinical Mental Health Counselors Examination (NCMHCE), unless you are applying for licensure by endorsement.

You must pass the NCMHCE examination within six (6) years from the date of initial issuance of the resident license. A licensed resident can take the examination at any point during the residency without Board pre-approval. An extension request after the six (6) year time period will not be considered.

You can registering online with CCE-Global and submit your payment of $275.00 for the examination fee. You will work directly with the testing agency until you pass the examination. You can take the examination every 90 days. Your scores will be forwarded to the Board office in four to six weeks following the examination.

**SPECIAL EXAMINATION ACCOMODATIONS**

All requests for special accommodations must be reviewed and approved by the Virginia Board of Counseling. Documentation supporting the accommodation request must be provided by a qualified professional, who has made an individualized assessment of the candidate, familiar with the current impact of the disability on the examinee’s ability to take the examination, and must include the following information:

- The examinee’s full name and date of birth.
- The specific, diagnosed disability and impairment.
- The specific accommodation(s) requested related to the disability.
- The substantial limitations of the examinee, e.g., adverse effects on major life activities, resulting from the impairment, as supported by test results or examination.
- The tests or methods used to diagnose the disability.
- Why the recommended accommodation(s) is needed, including information explaining how the accommodation(s) addresses the substantial limitation.

Revised: 03/2023
Whether the disability was diagnosed or reconfirmed within five (5) years preceding the date of the request.

The relevant credentials of the qualified professional, including his/her licensure or certification, education, and area(s) of practice or specialization related to the disability.

**Step 6: Submit Application for LPC Licensure by Examination**

Once residency hours are completed and NCMCHE examination passed, submit the online LPC by Examination application, required documentation and $175 application fee. Specifically, at this stage, submit the following:

- Online application for a license professional counselor by examination
- $175.00 application processing fee

A minimum of two (2) of these hours must be in courses that emphasize ethics, standards of practice, or laws governing behavioral science professions in Virginia. A LPC who was licensed by examination is exempt from meeting continuing competency requirements for the first renewal following initial licensure.

**LPC ENDORSEMENT LICENSURE PROCESS**
