

Instructions for Reinstating or Reactivating a Pharmacist License

It is unlawful for a person to practice pharmacy with an expired, lapsed, inactive, suspended, or revoked license.

Expired licenses:

Pharmacist licenses expire annually on December 31. **For one year** after a license expires, the pharmacist may renew that license in active status by submitting the renewal form with a statement of compliance with CE requirements and fee payment of the current active renewal fee plus a late fee. The pharmacist may also renew in inactive status during this time by submitting the renewal form and paying the current inactive renewal fee plus the late fee.

Lapsed (Expired status) licenses:

After one year, the license lapses and the pharmacist must then apply for reinstatement and pay the associated fees. To reinstate in active status, the pharmacist must provide original certificates of approved CE credits. Any hours obtained in the current year needed to reinstate may not also be used to meet CE requirements for the current year to renew for the next year. Pharmacists must submit certificates totaling 15 hours approved CE for the last year that the license was in current active status (the year that the license expired) and for each subsequent year that the license was expired or lapsed up to, but not including, the current year, and up to a maximum of 60 hours. CE certificates must be dated no earlier than the year that the license expired. Please see Guidance Document 110-4 for more information on approved continuing education credits. **See example below.*

Inactive licenses:

Pharmacists who have a current inactive status and desire to reactivate must apply for reactivation, pay the associated fees, and provide original certificates of 15 hours approved CE obtained for each of the previous years the license has been inactive up to a maximum of 60 hours. Any hours obtained in the current year to reactivate may not also be used to meet CE requirements to renew for the next year. CE certificates must be dated no earlier than the year preceding the year inactive status was taken. Please see Guidance Document 110-4 for more information on approved continuing education credits. **See example below.*

Suspended/Revoked licenses:

Except for mandatory, summary, or returned check suspensions, pharmacists who have had their licenses suspended or revoked must apply for reinstatement, pay the associated fee, and provide original documentation of 15 hours CE for each year since the license was last in a current active status up to a maximum of 60 hours as described above. Please see Guidance Document 110-4 for more information on approved continuing education credits. **See example below.*

****Important**** Any pharmacist whose license has expired and lapsed, been inactive, or been suspended or revoked for more than 5 years, must take and pass the Virginia Multistate Pharmacy Jurisprudence Examination (MPJE) prior to being reinstated. In addition, the pharmacist shall provide acceptable proof of either active pharmacy practice within the past five years as a properly licensed pharmacist in another state or practical experience as a pharmacy intern registered with the board (*you must also complete and submit pharmacy intern application and fee*) of at least 160 hours within six months immediately prior to being reinstated.

Example: license expires/goes inactive/is suspended on 12/31/2014 and pharmacist applies for reinstatement on 3/1/2017. Total CE hours needed to reinstate = 15 hours each for 2014, 2015, and 2016 for a total of 45 hours. No hours may be dated prior to 1/1/2014 and any dated 2017 used to reinstate/reactivate may not be used to meet the 2017 requirement to renew for 2018. Please be sure to check Guidance Document 110-4 for the most current requirements for continuing education.
