

Instructions for Reinstating a Pharmacy Technician Registration

It is unlawful for a person to perform pharmacy technician duties with an expired, lapsed, suspended, or revoked registration.

Expired registrations:

Pharmacy technician registrations expire annually on December 31. **For up to one year** after a registration expires the pharmacy technician may renew that registration by submitting the renewal online, payment of the current active renewal fee and late fee and attesting to the completion of the required 5 hours of continuing education (CE) during the previous year.

Lapsed registrations:

After one year, the registration lapses and the pharmacy technician must then apply for reinstatement, pay the current active renewal fee of \$35 plus the reinstatement fee of \$45 for a total of \$80. To reinstate, the pharmacy technician must provide documentation of approved CE credits. In lieu of submitting certificates, pharmacy technicians may submit the summary “transcript of CPE activity” of their ACPE accredited CEs found on CPE Monitor at www.nabp.pharmacy. Any hours obtained in the current year needed to reinstate may not also be used to meet CE requirements for the current year to renew for the next year. Pharmacy technicians must submit certificates totaling 5 hours approved CE for the last year that the registration was in current active status (the year that the registration expired) and for each subsequent year that the registration was expired/lapsed up to a maximum of 20 hours. CE must be dated no earlier than January 1st of the year that the registration expired. **See example below.*

After five years, the pharmacy technician shall take and pass a national certification examination administered by PTCB or NHA, unless national certification is currently maintained. Documentation of completion of 20 hours of CE must accompany the reinstatement application and fee. If national certification through PTCB or NHA is maintained, documentation of current active status shall also accompany the application.

Suspended/Revoked registrations:

Except for mandatory, summary, or returned check suspensions, pharmacy technicians who have had their registrations suspended or revoked must apply for reinstatement, pay a \$165 reinstatement fee, and provide certificates of 5 hours CE for each year since the registration was last in a current active status as described above. In lieu of submitting certificates, pharmacy technicians may also submit the summary of their ACPE accredited CEs found on CPE Monitor at www.nabp.pharmacy. **See example below.*

[Example: registration expires or is suspended on 12/31/2019 and the pharmacy technician applies for reinstatement on 3/1/2022. Total CE hours needed to reinstate = 5 hours each for 2019, 2020, and 2021 for a total of 15 hours. No hours may be dated prior to 1/1/2019 and any dated 2021 used to reinstate may not be used to meet the 2021 requirement to renew for 2022]
