Does the pharmacy have a PMP waiver?		If yes, does the pharmacy dispense a "covered substance"?	
<p>§ 54.1-2519 "Covered substance" means all controlled substances included in Schedules II, III, and IV; controlled substances included in Schedule V for which a prescription is required; naloxone; and all drugs of concern that are required to be reported to the Prescription Monitoring Program, pursuant to this chapter. "Covered substance" also includes cannabidiol oil or THC-A oil dispensed by a pharmaceutical processor in Virginia.</p>

Pharmacy Inspection Report**

New Pharmacy Permit		Result	Notes	
	18VAC110-20-140 (F) - Once the permit is issued, prescription drugs may not be stocked earlier than two weeks prior to the designated opening date. Once prescription drugs have been placed in the pharmacy, a pharmacist shall be present on a daily basis to ensure the safety and integrity of the drugs. If there is a change in the designated opening date, the pharmacy shall notify the board office, and a pharmacist shall continue to be on site on a daily basis.			
	18VAC110-20-140 (G) - If the pharmacy is not operational within 90 days from the date the permit is issued, the board shall rescind the pharmacy permit unless an extension is granted for good cause shown.			
Comments				
Security 18VAC110-20-180		Result	Security Equipment & Monitoring	
This section shall not apply to pharmacies that are open and staffed by pharmacists 24 hours a day. If the pharmacy changes its hours or if it must be closed for any reason, the PIC or owner must immediately notify the board, file an application in accordance with 18VAC110-20-140 (A), and have installed prior to closing a security system that meets the requirements of 18VAC110-20-180 (A)(1) through (A)(4).				
	A device for the detection of breaking shall be installed in each prescription department of each pharmacy. The installation and the device shall be based on accepted alarm industry standards, and shall be subject to the following conditions:		Was the security system tested?	
	The device shall be a sound, microwave, photoelectric, ultrasonic, or any other generally accepted and suitable device.		Primary connection:	
	The device shall:		Secondary connection:	
	1. have at least one hard-wired communication method		Monitored by:	
	2. be monitored in accordance with accepted industry standards		Primary verified by:	
	3. be maintained in operating order		Secondary verified by:	
	4. have an auxiliary source of power			
	5. be capable of sending an alarm signal to the monitoring entity when breached if the communication line is not operational.			
	The device shall fully protect the prescription department and shall be capable of detecting breaking by any means when activated.		Sensors	
	Access to the alarm system for the prescription department area of the pharmacy shall be restricted to the pharmacists working at the pharmacy, except for access by other persons in accordance with 18VAC110-20-190 B 2.		90 degree	
			180 degree	
	The system shall be activated whenever the prescription department is closed for business.		360 degree	
			Contact	
	The alarm system shall include a feature by which any breach in the alarm shall be communicated by the monitoring entity to the PIC or a pharmacist working at the pharmacy.		Other	
	Cameras			
Security System Notes

Pharmacy Inspection Report**

Physical Standards 18VAC110-20-150		Result	Notes
	The prescription department shall not be less than 240 square feet. The patient waiting area or the area used for counseling, devices, cosmetics, and proprietary medicines shall not be considered a part of the minimum 240 square feet. The total area shall be consistent with the size and scope of the services provided.		
	Access to stock rooms, rest rooms, and other areas other than an office that is exclusively used by the pharmacist shall not be through the prescription department		
	A rest room in the prescription department, used exclusively by pharmacists and personnel assisting with dispensing functions, may be allowed provided there is another rest room outside the prescription department available to other employees and the public.		
	The pharmacy shall be constructed of permanent and secure materials. Trailers or other moveable facilities or temporary construction shall not be permitted.		
	The entire area of the location of the pharmacy practice, including all areas where drugs are stored shall be well lighted and well ventilated; the proper storage temperature shall be maintained to meet U.S.P.-N.F. specifications for drug storage.		
	The prescription department counter work space shall be used only for the compounding and dispensing of drugs and necessary recordkeeping.		
	A sink with hot and cold running water shall be within the prescription department. A pharmacy issued a limited-use permit that does not stock prescription drugs as part of its operation is exempt from this requirement.		
	Adequate refrigeration facilities equipped with a monitoring thermometer for the storage of drugs requiring cold storage temperature shall be maintained within the prescription department if the pharmacy stocks such drugs. A refrigerator is a cold place in which temperature is maintained thermostatically between 2° and 8°C (36° and 46°F). A freezer is a cold place in which the temperature is controlled between -25° and -10°C (-13° and 14°F). In those instances in which articles may have a recommended storage condition below -20°C (-4°F), the temperature of the storage location should be controlled to plus or minus 10 degrees. (18VAC110-20-10)		
	A pharmacy stocking drugs requiring cold storage temperature shall record the temperature daily and adjust the thermostat as necessary to ensure an appropriate temperature range. The record shall be maintained manually or electronically for a period of two years.		
Sanitary Conditions 18VAC110-20-160		Result	Notes
	The entire area of any place bearing the name of a pharmacy shall be maintained in a clean and sanitary manner and in good repair and order.		
	Adequate trash disposal facilities and receptacles shall be available.		
Required Equipment 18VAC110-20-170		Result	Notes
	A current dispensing information reference source consistent with the scope of pharmacy practice at the location of the permitted pharmacy.		
	A set of Prescription Balances, sensitive to 15 milligrams, and weights or an electronic scale if the pharmacy engages in dispensing activities that require the weighing of components.		
	Other equipment, supplies, and references consistent with the pharmacy's scope of practice and with the public safety.		

**Virginia Board of Pharmacy
Pharmacy Inspection Report**

Enclosures 18VAC110-20-190		Result	Notes		
	The enclosure shall be constructed in such a manner that it protects the prescription drugs from unauthorized entry and from pilferage at all times whether or not a pharmacist is on duty.				
	The enclosure shall be locked and alarmed at all times when a pharmacist is not on duty.				
	The enclosure shall be capable of being locked in a secure manner at any time the pharmacist on duty is not present in the prescription department.				
	The keys or other means of entry into a locked prescription department and the alarm access code shall be restricted to pharmacists practicing at the pharmacy and authorized by the PIC with the following exceptions in 18VAC110-20-190 (B)(1) & (B)(2))				
Compounding					
	Does the pharmacy engage in nonsterile compounding?		Risk Levels:		
	Does the pharmacy engage in sterile compounding?				
Sterile Compounding 18VAC110-20-321 & §54.1-3410.2			Risk Levels:		
	Name of certification company		Notes		
	Does the pharmacy utilize a CAI or CACI in a non-ISO 7 area?				
	Does a demarcation line or barrier separate the buffer area from the ante area?				
	Does the pharmacy engage in immediate use compounding?
