## Summary of Trends

---

There are some changes over the years in the statistics relating to Nurse Education programs that are worth noting. The percent of Practical Nursing (PN) and Registered Nursing (RN) programs offering weekend and evening courses have declined. In 2015-16 academic year, 16% and 44% of PN and RN programs offered evening classes compared to 39% and 52% in 2012-13 and 31% and 59% in 2014-15, respectively. Similarly, 9% of PN and 25% of RN programs offered weekend courses in 2015-16, compared to 17% and 34%, respectively, in 2014-15. By contrast, the percent offering online PN courses increased from 12% to 21%. There was no significant change in RN online program offering. A higher percentage of PN programs also reported accreditation by the Southern Association of Colleges and Schools (SACS); 48% were SACS accredited in the current report compared to 41% in 2012-13.

Some changes were also recorded with regards to students and applicants. The number of total PN program applicants has been erratic over the years. It was 5,072 in this current report compared to 5,667, 4,391, and 5,013 in 2014-15, 2013-14, and 2012-13, respectively. Similarly, the number of total first year PN students enrolled hit a 4-year low in the current report at 2,238. By contrast, the number of first year RN students enrolled hit a 4-year high at 5,992. Similar patterns were obtained for the total enrollment figures for both types of program. Whereas the total enrollment declined for PN programs in the current report, it increased for RN programs.

Some significant changes were also noted in faculty statistics. The total number of faculty reported in PN programs reached a 4-year low in the current report. PN programs had a total of 400 faculty in 2015-16 compared to 411, 447, and 439 in 2014-15, 2013-14, and 2012-13, respectively. Although RN programs had 2,053 faculty members in 2015-16 compared to 2,115 in 2014-15, the current number of faculty members was higher than in 2012-13 and 2013-14 academic years. The percent of faculty that were full time also declined for both types of program although decline was insignificant for RN programs. PN programs reported 46% faculty members were full time in this current report compared to 50% in 2014-15 and 54% in 2012-13. RN programs reported 46% of faculty members were full time compared to 47% in 2014-15. Full time faculty turnover rates also increased and were at a 4-year high for both types of programs. PN programs had a 27% full time faculty turnover rate whereas RN program had a 14% full time faculty turnover rate. To make matters worse for RN programs, full time faculty newly appointed rate declined and were at a 4-year low. However, the rate increased slightly from 20% in 2014-15 to 22% in the current report for RN programs.

Clinical Hours

Source: VA. Healthcare Workforce Data Center

**At a Glance:**

**Median Clinical Hours**

Clinical Experience: 426-450  
 Direct Client Care: 400+  
 Direct Client Care in Va.: 441  
 Clinical Simulation: 1-25  
 Clinical Observation: 1-25

Source: VA. Healthcare Workforce Data Center

Approximately three-quarters of all PN programs in Virginia required between 400 and 475 hours of clinical experience from their students; the rest required more than 476 hours. Pursuant to 18VAC 90-20-120.E, Virginia’s PN programs are required to provide 400 hours of direct client care, of which 20% may be simulated.

Clinical Experiences Outside Virginia		
State	# of Programs	% of Programs
Washington, D.C.	3	5%
North Carolina	0	%
Maryland	1	2%
West Virginia	0	%
Tennessee	1	2%
<b>At least One</b>	<b>5</b>	<b>9%</b>

Source: VA. Healthcare Workforce Data Center

Only 5 programs offered clinical experience hours outside of Virginia. Washington, D.C. was the only places where clinical experience was offered by more than one program.

<b>Proprietary</b>	2,954	1,736	59%	1,401	81%	1,141	81%	39%
<b>All Programs</b>	5,072	3,245	64%	2,645	82%	2,238	85%	44%

Source: VA. Healthcare Workforce Data Center

*Out of 3,245 qualified applications, 600 did not result in an offer of admission. Eight programs mentioned inability to expand the effective program capacity as the reason for not admitting all qualified students; seven mentioned the family and personal circumstances of the students. Four programs cited lack of clinical space and another four mentioned lack of classroom space. Three programs mentioned lack of faculty and five mentioned other reasons.*

 Spaces Available: 6,445  
 Spaces Unfilled: 784

**Unfilled Capacity**  
 % of Programs: 59%  
 % of Total Capacity: 12%

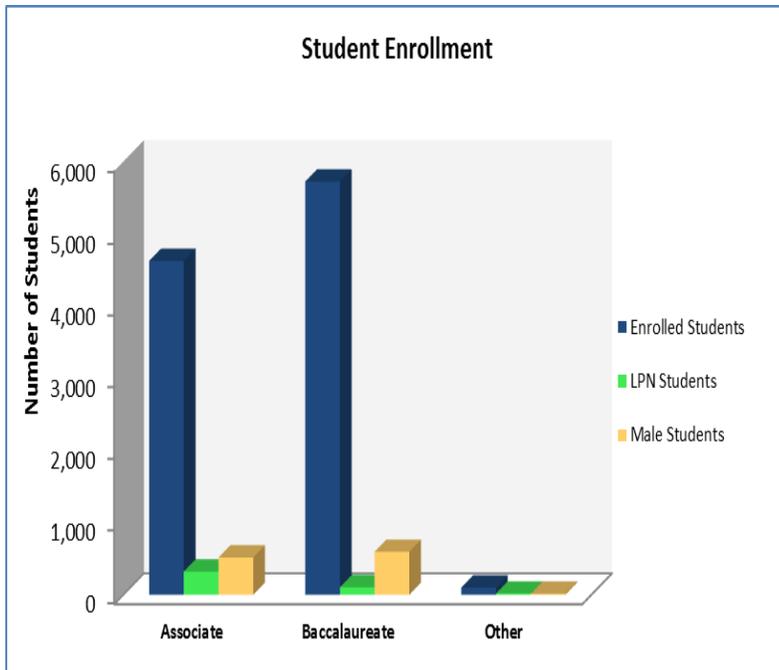

Source: VA. Healthcare Workforce Data Center

*Virginia’s RN programs were able to utilize 88% of their available first-year student capacity. Programs provided a variety of reasons for explaining the cause of unfilled spaces. One of the most common explanations was late withdrawal or no shows. Another key reason was lack of qualified applicants. Many programs also cited financial situation of students and other personal and family situations that interfered with students’ enrollment. Some students could also not be admitted because they did not pass the entrance examination.*
