

# Virginia Board of Medicine BOARD BRIEFS

Newsletter #69  
September 2009

## **Board Members** MDs by District ( )

**Jane E. Piness, MD (11)**  
*President*  
*Dunn Loring*

**Karen A. Ransone, MD (1)**  
*Vice-President*  
*Cobbs Creek*

**Valerie Hoffman, DC**  
*Secretary-Treasurer*  
*Danville*

**Gen. Clara Adams-Ender, RN**  
*Lake Ridge*

**Sandra A. Bell, MD (3)**  
*Richmond*

**Ann T. Burks, JD**  
*Richmond*

**Malcolm L. Cothran, MD (6)**  
*Lexington*

**Claudette Dalton, MD (5)**  
*Earlsville*

**Stephen E. Heretick, JD**  
*Portsmouth*

**William H. Epstein, MD (9)**  
*Blacksburg*

**Gopinath Jadhav, MD (7)**  
*Richmond*

**Jennifer Lee, MD (8)**  
*Arlington*

**Stuart Mackler, MD (2)**  
*Franktown*

**Roderick Mathews, JD**  
*Richmond*

**Juan M. Montero, MD (4)**  
*Chesapeake*

**Wayne Reynolds, DO**  
*Gloucester Point*

**Ellen Shapiro, DPM**  
*Richmond*

ACCESS THE BOARD'S WEBSITE AT  
<http://www.dhp.virginia.gov/medicine/>

## **Laws and Regulations**

All the laws and regulations governing the practice of the healing arts and drug laws for practitioners are commended to your reading. Just follow the links provided below.

[http://www.dhp.virginia.gov/medicine/medicine\\_laws\\_regs.htm](http://www.dhp.virginia.gov/medicine/medicine_laws_regs.htm) □

## **2010 Renewals**

All doctors of medicine, osteopathic medicine, podiatry and chiropractic will need to renew their licenses in 2010. Your license expires at the end of your birth month in even years. The Board will notify you by mail 6-10 weeks in advance of your expiration date. It is most efficient for all if you take advantage of the online renewal process. As part of the online renewal process, all MDs, DOs and DPMs will be asked to update their doctor profiles. Also, MDs and DOs will be asked to provide responses to a workforce survey. A version of the survey has been offered the last 3 renewal cycles; the one for 2010 is closely connected to the Governor's Health Care Reform initiatives and seeks to better define Virginia's need for doctors in the future. Occupational Therapists will also renew in 2010, and Occupational Therapy Assistants who have been licensed for at least 12 months will also be notified of the need to renew. □

## **Continuing Education Requirements**

At the time of renewal, MDs, DOs, DCs, and DPMs will be asked to attest to having obtained at least 60 hours of continuing medical education in the preceding 24 months. At least 30 hours must be Category I or Type I. The requirement that at least 15 hours be interactive with colleagues has been removed; thereby allowing all 30 hours of Category I to be obtained through self-study. Occupational Therapists will need to attest to obtaining at least 20 contact hours of continuing learning activities. At least 10 of the 20 hours must be Type I activities sponsored by an organization recognized by the profession. No Occupational Therapy Assistants will need to attest to continuing learning hours if they are in the group required to renew in 2010. □

## **Office-Based Anesthesia CME Requirement**

If you provide office-based anesthesia or supervise the administration of anesthesia in your office, you must maintain current certification in advanced resuscitation techniques. Additionally, if you administer office-based anesthesia without the assistance of an anesthesiologist or certified registered nurse anesthetist, you must obtain four hours of continuing education in topics related to anesthesia within the 60 hours required each biennium for licensure renewal. □

## **Pain Management Module-Type 1 Continuing Education for License Renewal**

Leanne Yanni, MD, Assistant Professor of Internal Medicine at VCU-MCV has created an educational module on pain management and prescribing for use by the Department of Health Professions (DHP). The module can be accessed on DHP's homepage under the Prescription Monitoring tab on the left-hand side. The Board of Medicine has determined that it will accept completion of the module as Type I continuing education for license renewal. The activity should take about 3-4 hours. If you treat pain, this module will make you better at doing so. □

## **Reminder about ESMB Guidebook**

Approximately 20,000 MDs and DOs received a copy of the State Medical Boards "Responsible Opioid Prescribing" in 2008. The book is an expansion of the Federations' Model Policy and remains the gold standard for good patient care and how the Virginia Board of Medicine understands and oversees matters of prescribing and pain management. It is again commended to your reading. □

## **Prescription Monitoring Program**

All prescribers are encouraged to use the Prescription Monitoring Program (PMP) to access information about patients for whom you prescribe or anticipate prescribing. Patient consent is no longer required to access the data; however your patient must be informed that you might check their data. Usually reports can be returned in about 30 minutes. New software should be installed later this year that will provide immediate reports. Checking the PMP will help you verify a patient's treatment history with controlled substances; to include verifying compliance, identifying possible substance abuse issues, and potential "doctor shopping". If you are not already a registered user of the **PMP Data Center** visit [www.pmp.dhp.virginia.gov](http://www.pmp.dhp.virginia.gov) and click on "Not a User?", fill out the information form, click submit, then print the form out and **fax it to 804-527-4470**. Your User Name and Password will be mailed to your address of record on file with the Department of Health Professions. For questions about the PMP Data Center please call 804-367-4566. □

## **Know the Law about Writing a Prescription**

There are two important laws that you should know and always follow in your writing of prescriptions for drugs of all schedules.

The first is Section 54.1-3303 of the Code of Virginia. It requires that you have a bona fide doctor-patient relationship with an individual to issue a prescription. “..a bona fide practitioner-patient relationship means that the practitioner shall (i) ensure that a medical or drug history is obtained; (ii) provide information to the patient about the benefits and risks of the drug being prescribed; (iii) perform or have performed an appropriate examination of the patient, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically; except for medical emergencies, the examination of the patient shall have been performed by the practitioner himself, within the group in which he practices, or by a consulting practitioner prior to issuing a prescription; and (iv) initiate additional interventions and follow-up care, if necessary, especially if a prescribed drug may have serious side effects”.

The second is Section 54.1-3408.01 which outlines the required information a prescription must contain. Here are the essential elements of the law.

- Written with ink or individually typed or printed.
- Name, address, and telephone number of the prescriber.
- Federal controlled substances registration number if Schedule II-V.
- Prescriber's information shall be either preprinted upon the prescription blank, electronically printed, typewritten, rubber stamped, or printed by hand.
- First and last name of the patient for whom the drug is prescribed.
- Address of the patient
- Each written prescription shall be dated as of, and signed by the prescriber on, the day when issued.
- No written prescription order form shall include more than one prescription.

Further guidance, including about electronic prescriptions, can be found at:

<http://www.dhp.virginia.gov/Pharmacy/guidelines/110-35%20Requirements%20for%20prescriptions.doc>

## **DEA Schedule II**

The DEA has published its final rule on writing more than one prescription for the same Schedule II drug on the same day. It is now lawful to write up to 90 days of Schedule II medication on multiple prescriptions as long as it is permitted by state law. This essentially reinstates the process that was in place up until September 2005, but with the limitation of 90 days. Always remember that the prescription must be dated the day it is written with instructions elsewhere on the document not to fill until a specific later date. And always remember to document prescriptions in the patient's medical record. □

## **Know the Ryan Haight Act**

The Ryan Haight Online Pharmacy Consumer Protection Act is the name of federal law that was enacted on October 15, 2008; it amended the Controlled Substances Act to better prevent the illegal distribution of controlled substances over the Internet. The Drug Enforcement Administration subsequently issued regulations, effective April 13, 2009, to implement the provisions of the Act. One of the central features of the Act is the “**valid prescription**” requirement. In 21 USC 829(e)(2)(A), the term **valid prescription means one that is issued for a legitimate medical purpose in the usual course of professional practice by a prescriber that has conducted at least one in-person medical evaluation of the patient or a prescription written by a covering prescriber.** Further, the Act makes it clear that in-person medical evaluation means one that is performed with the patient in the physical presence of the practitioner. Therefore, it will be an automatic violation of federal law to issue a prescription for a controlled substance over the Internet without having performed at least one in-person medical evaluation of the patient. A covering practitioner is defined as one that conducts a medical evaluation at the request of a practitioner that has already seen the patient in-person for an evaluation. The Act provides an exception for the legitimate practice of telemedicine. The temporary definition of telemedicine is the practice of medicine in accordance with applicable Federal and State laws by a practitioner at a location remote from a patient but who is communicating with the patient or with a health care professional treating the patient with a telecommunications system that is interactive and meets the requirements of Federal law and regulation. DEA is considering the creation of a special registration for telemedicine. You are encouraged to access the entire Act for further details at: <http://edocket.access.gpo.gov/2009/pdf/E9-7698.pdf> □

## **Physician Profiles**

The Board encourages you to get in the habit of checking your profile on a regular basis. In that way, you can be assured that you will be in compliance with the Board’s regulation that requires doctors to provide updates to the profile within 30 days of a change in the information that is displayed to the public. Required and voluntary information must be accurate. □

## **You Must Report.....Reporting Requirements**

As a licensee of the Board of Medicine, there are a number of reporting requirements of which you need to be aware.

- You must self-report actions taken against you by another state, a federal institution or the voluntary surrender of a license in another state while under investigation, malpractice judgments or settlements, professional incompetence, professional negligence, impairment or other conduct that is covered under Section 54.1-2915 of the Code of Virginia. The same must be reported about other licensees of the Board of Medicine when you become aware of such conduct.
- If you treat a licensed healthcare provider for mental disorders, chemical dependency or alcoholism, you must report the individual to the respective licensing board unless you

have reason to believe that individual is competent to continue in practice or would not constitute a danger to self or to others.

- If you have a patient that has anesthesia in the office setting and dies within 72 hours, or requires a hospital stay of more than 24 hours, you must report the case to the Board.
- Pursuant to §63.2-1509, you must report suspected child abuse to the local office of the Department of Social Services.
- Pursuant to §63.2-1606, you must report suspected abuse, neglect or exploitation of adults to the local office of the Department of Social Services or the Adult Protective Services hotline.
- You are required to report certain infectious diseases to your local health department within three (3) days of suspected or confirmed diagnosis. Some diseases require “rapid communication” (within 24 hours of suspicion or confirmation). For the complete list of reportable diseases and associated reporting methods and timeframes, see Department of Health Regulation 12VAC5-90-80 or access it by using the following link:  
[http://www.vdh.state.va.us/Epidemiology/Disease\\_List.htm](http://www.vdh.state.va.us/Epidemiology/Disease_List.htm) □

## **Physician Assistants and Supervising Physicians**

You should be aware of the regulations governing office-based anesthesia that clearly define which professionals can administer major conductive blocks using anesthetic drugs. Board of Medicine regulation 18VAC85-20-330(B)(1) states “1. Deep sedation, general anesthesia or a major conductive block shall be administered by an anesthesiologist or by a certified registered nurse anesthetist. If a major conductive block is performed for diagnostic or therapeutic purposes, it may be administered by a doctor qualified by training and scope of practice. Physician assistants are not authorized to perform major conductive blocks. However, there are no specific limitations on physician assistants giving steroid injections, as long as they are properly trained, and an invasive procedure form has been approved by the Board.

Additionally, you should be aware that the law does not allow physician assistants to take x-rays or otherwise operate devices that emit ionizing radiation, such as C-arm fluoroscopy. As the law is currently written, a physician assistant has to work with a radiologic technologist to perform procedures under fluoroscopy. □

## **Do Not Aid or Abet Unlicensed Practice**

In the course of a busy practice of medicine, you may conclude that a smart individual in your employ can safely perform more complex tasks than he/she is doing on a daily basis. Be sure you do not overstep your bounds of delegation. You are authorized under the law to delegate tasks that do not require medical discretion to unlicensed individuals, but you cannot delegate any task that requires medical decision-making. Further, you cannot delegate the practice of another profession to anyone. For instance, you cannot authorize a nurse or a physician assistant to take x-rays; operating equipment that emits ionizing radiation is the practice of radiologic technology. □

## **Mixing, Diluting or Reconstituting Regulations**

The Board has regulations regarding how mixing, diluting or reconstituting of drugs for administration in your practice must occur. These regulations establish standards for medical practice insofar as requirements for training, second checks, documentation, and time to administration. Mixing, diluting or reconstituting that is performed by a doctor of medicine or osteopathic medicine, a pharmacist, or by a specially trained physician assistant or registered nurse or mixing, diluting or reconstituting of vaccines does not require a second check; however, preparation by anyone else requires a second check by a physician, pharmacist, or specially trained PA or RN. At some point, the Board will begin a random inspection program to assess compliance with the regulation. □

## **Three Paid Claims Competency Assessment**

In 2007, the General Assembly amended the law enacted in the 2005 session to require competency assessments for licensees with three medical malpractice judgments or medical malpractice settlements of more than \$10,000 in the most recent ten-year period. The change was incorporated into Section 54.1-2912.3 of the Code of Virginia. The Board does quarterly runs on its databases to identify practitioners that may be subject to this law. If a licensee appears to be subject to this law, a certified letter will be sent apprising him of his responsibility to obtain a competency assessment. If a licensee believes that he has received the letter in error, or needs further clarification regarding the assessment, he is instructed to contact the Board. □

## **Address of Record**

The Board's regulations require that you provide an address of record for the purpose of official communication. If your address changes, you need to notify the Board within 30 days. A new law, effective July 1, 2009, allows licensees to have the address of record remain confidential if a second address for release to the public is provided to the Board. □

## **Cooperation with Department of Health Professions Investigators**

It is a violation of Board of Medicine regulation 18VAC85-20-105 to willfully refuse to provide information or records to a DHP investigator representing the Board. □

## **Licensing of Occupational Therapy Assistants Proceeding**

The Board of Medicine now licenses occupational therapy assistants subsequent to law and emergency regulations. To date, over 600 have been issued active licenses. In July, the Advisory Board on Occupational Therapy took public comment on proposed final regulations. Most of the commentary related to the supervision of OTA's by occupational therapists. It is anticipated that the final regulations will require periodic in-person supervision. □

## **Respiratory Care and Polysomnography**

The Board of Health Professions (BHP) prepared a study of the profession of polysomnography at the request of the Board of Medicine. BHP requested review of the report by the Advisory Board on Respiratory Care to obtain perspective on whether licensure should be required for the practice of polysomnography. The Advisory Board made a recommendation which was approved by the Full Board of Medicine and forwarded to the Board of Health Professions for consideration. The recommendation is that licensure be established for polysomnography, and further, that if a licensed respiratory therapist wishes to practice polysomnography, that a second license will not be required. The matter is still under consideration by BHP. □

## **Radiologist Assistants to Join Radiological Technologists**

The new profession of radiologist assistant was established by law passed in the 2009 Session of the General Assembly. Here is the definition of radiology assistant:

*"Radiologist assistant" means an individual who has met the requirements of the Board for licensure as an advanced-level radiologic technologist and who, under the direct supervision of a licensed doctor of medicine or osteopathy specializing in the field of radiology, is authorized to (i) assess and evaluate the physiological and psychological responsiveness of patients undergoing radiologic procedures; (ii) evaluate image quality, make initial observations, and communicate observations to the supervising radiologist; (iii) administer contrast media or other medications prescribed by the supervising radiologist; and (iv) perform, or assist the supervising radiologist to perform, any other procedure consistent with the guidelines adopted by the American College of Radiology, the American Society of Radiologic Technologists, and the American Registry of Radiologic Technologists. □*

## **Midwifery and Disclosure**

HB2163 from the 2009 Session of the General Assembly became law on July 1, 2009. This law requires midwives to disclose to their patients, when appropriate, options for consultation, referral to a physician, and evidence-based information on health risks associated with home birth, including but not limited to risks associated with vaginal births after a prior cesarean section, breech births, births by women experiencing high-risk pregnancies, and births involving multiple gestation. A Notice of Intended Regulatory Action to promulgate regulations was approved by the Board at its June meeting. □

## **Ad Hoc Committee on Competency**

The Board's Ad Hoc Committee on Competency was constituted to review the issues of continuing competency and initial competency. The committee began its review with the Board's requirements for initial licensure. The next task for the committee is to review the issues surrounding continuing competency and make recommendations if necessary. The next meeting is scheduled for November 23, 2009. □

## **Ad Hoc Committee on Office-Based Surgery**

The Board currently has regulations for office-based anesthesia that are applicable to practitioners that perform procedures outside hospitals and licensed ambulatory care centers. The plastic surgery community has asked that the Board consider requirements for office-based surgical procedures; these would essentially be a companion set of requirements to those in the anesthesia regulations. At its August 7, 2009 meeting, the Executive Committee of the Board voted to establish an ad hoc committee. The committee will be inclusive of most of the stakeholders in the outpatient surgery realm. Its charge will be to determine if regulations or legislation should be pursued to better protect the public. □

## BOARD DECISIONS

The following list contains decisions for all proceedings conducted from July 2007 through July 2009. You may access these decisions at [www.dhp.virginia.gov](http://www.dhp.virginia.gov) (select "License Lookup") or at [www.vahealthprovider.com](http://www.vahealthprovider.com) for most MDs, DOs and DPMs. You may also contact the Board Office at (804) 367-4571 to request a copy.

NAME AND LICENSE NO.	DATE OF ACTION	<u><b>2007 ACTIONS</b></u>
Aggroia, Abhay V., MD 0101-055856 Woodbridge, VA	11/08/07	Reinstatement denied; continued on indefinite suspension based on a felony conviction; engaging in a sexual relationship by virtue of the practitioner-patient relationship; prescribing controlled substances without proper evaluation, comprehensive treatment plan, or monitoring; prescribing outside the bounds of medicine and with no legitimate medical purpose in one patient case; and failure to provide evidence of any corrective measures taken or development for a return to practice.
Allen, Eddie W., RCP 0117-002354 Norton, VA	10/15/07	Compliance with the Board's Order entered 09/21/06; license restored to full and unrestricted status.
Altman, Robert M., MD 0101-039181 Burke, VA	11/15/07	Violation for failure to timely update his Practitioner Profile; no sanction imposed due to mitigating circumstances and corrective measures.
Berg, Eric, DC 0104-001851 Alexandria, VA	09/13/07	Reprimand, \$1500 monetary penalty and license subject to terms and condition based on providing treatment outside the scope of chiropractic medicine and inadequate medical recordkeeping in multiple patient cases and multiple instances of false and deceptive advertising.
Blankenship, Tia N., RCP 0117-004895 Blacksburg, VA	11/30/07	Compliance with the Board's Order entered 06/14/07; terms and conditions terminated and license restored to full and unrestricted status.
Bojadzic, Edin, RCP 0117-004190 Charlottesville, VA	11/06/07	Violation of consuming alcohol before and during a hospital shift; no sanction imposed based on compliance with terms of a Participation and Recovery Monitoring contract with HPIP through 2012 and being an isolated incident.
Carlton, Edward D., DC 0104-000845 Manassas, VA	10/29/07 11/02/07	Reprimand, \$1500 monetary penalty, license subject to terms and conditions based on false and deceptive advertising. Compliance with Board's Order entered 10/29/07; restored to full and unrestricted license status.
Carson, Catherine K., DC 0104-000559 Fairfax, VA	10/25/07	Indefinite suspension based on unlicensed activity and misrepresentation of valid licensure to Blue Cross Blue Shield and the Dept. of Health Professions' investigator.
Cho, Jai J., MD 0101-034437 Charlottesville, VA	11/08/07	Compliance with the Board's Order entered 03/16/07; terms terminated and license restored to full and unrestricted status.
Concessi, Michael, DC 0104-000629 Grosse Ile, MI	07/20/07	Compliance with the Board's Order entered 11/30/05; terms terminated and license restored to full and unrestricted status.
Coroneos, Emanuel, MD 0101-054718 Pittsburgh, PA	07/03/07	Reprimand based on action by the WVA Board of Medicine; IL Dept. of Financial & Professional Regulation; TX Medical Board; and IA Board of Medical Examiners.
Delenick, Peter J., MD 0101-038823 Great Falls, VA	07/11/07	Mandatory suspension based on action by the PA State Board of Medicine; concurrent reinstatement of license on indefinite probation subject to terms and conditions of previously entered 05/18/07 Board Order; no lapse in licensure.
DePeri, Vincent, DC 0104-555632 Atlanta, GA 30318	10/23/07	Indefinite suspension based on sexual contact with a patient concurrent with and by virtue of the practitioner-patient relationship; fraudulent billing; improper management and documentation of medical records; and refusal to cooperate with the Dept. of Health Professions' investigator.

Ellis, James V., MD 0101-027964 Germantown, TN	10/04/07	Voluntary permanent surrender of license based on inability to practice due to mental and/or physical illness.
Fisher, Evelyn J., MD 0101-048749 Commerce Township, MI	09/10/07	Voluntary surrender of license based on inability to practice with reasonable skill and safety due to a progressive neurological disability.
Fleeter, Thomas, MD 0101-033156 Reston, VA	09/24/07	Violation of improper surgical technique in one patient case; no sanction imposed due to remedial action and mitigating circumstances.
Fogle, Kelly A., MD 0101-025512 Richmond, VA	10/19/07  12/03/07	Summary Suspension - continued practice is a substantial danger to the public health and safety based on allegations of inability to practice with reasonable skill and safety due to neurological impairment. Voluntary surrender of license for indefinite suspension based on inability to practice medicine and surgery due to a neurological and/or physical condition.
Friedler, Edward M., MD 0101-039090 Annandale, VA	08/10/07	Compliance with the Board's Order entered 11/14/06; terms and conditions terminated and license restored to full and unrestricted status.
Garringer, Jacqueline A., MD 0101-235787 Middleburg, VA	12/27/07	Reprimand; license subject to terms and conditions based on prescribing controlled substances outside a bona fide practitioner/patient relationship on multiple occasions.
Gosselin, Paul G., DO 0102-201322 Waterville, ME	07/23/07	Terms and conditions terminated; license restored to full & unrestricted status.
