Virginia Board of Pharmacy

Notification of Changes to Issuance of Licenses, Registrations, and Permits

The Board of Pharmacy is implementing a process to cease mailing hard-copy licenses, registrations, and permits on an annual basis that bear an expiration date. A final hard copy will be issued that contains no expiration date. This final copy should be maintained, carried, or posted in accordance with relevant applicable laws and regulations. As of July 1, 2019, all newly issued, reinstated, or duplicate copies of pharmacy technician registrations will follow this new process and thus, will not bear an expiration date. Additional licensure categories will be phased in over the next six months and during the upcoming renewal cycle. State health regulatory boards, employers, insurance providers and citizens seeking verification of current licensure status of any license, registration, or permit in the Commonwealth of Virginia may obtain this information via [License Lookup](#). Information obtained via License Lookup serves as primary source verification.

Individuals may request a replacement or duplicate of a final hard-copy license through an individual [online account](#).
